

Sixth Form

OFSTED Comments

October 2016

‘Leadership of the sixth form continues to be strength of the school. Immediate action is taken to address weaknesses and students talked enthusiastically about the support they receive from teachers to help them to improve. Students are provided with a rich curriculum including opportunities for enrichment, a work placement for all and effective careers information and guidance. Sixth-form students are delightful, proud members of the school and talk confidently about the difference the school is making to their lives.

Pupils wear the school uniform with pride and look smart, especially sixth-form students.

Outcomes in the sixth form continue to improve, especially in vocational subjects. Most students resitting GCSE English and mathematics improve their grade, with many attaining a grade C or above.’
